Winter Sports are starting on time. Leadership group is 100% committed to having sports even if kids are virtual all year. If we start sports in the winter and COVID cases increase it doesn't mean we wouldn't have a fall or spring seasons. Winter Sports Information Meeting was held.

Activity registration has been challenging but Edison is being accommodating with student athletes as things transition.

Live streaming will be in every gymnasium and stadium. Selling sponsorships for live streaming is not an option this year. This year live streaming will be free to everyone since there is a limit on spectators at an event.

Limit is 25 spectators starting in January for winter sports. Timers will be allowed. Hopefully the number will increase to 250 for fall and spring sports.

Process for coaches to use team funds is to fill out the form Carol created and submit to Greg. Remind the coaches they need to have backup for their request. Request from Coach C. for hurdles was discussed. We recommend splitting the cost for the hurdles between team funds and Booster funds.

Masks will be shipped to us and distributed by us for now.

**New Business:** Athletes Taking it to the Next Level Board discussed. costs about \$3500. How do we determine how many years we go back for college athletes? Might be better to spend money for trophy cases. Lots are sitting in closets and classrooms.
